

Deep Patel

deepkalpana1@aol.com | 843-624-5046 | <https://deepthepatel.github.io/website/>

SKILLS

Developer Tools: Git, AWS, Azure, MS SQL Server Management Studio, Visual Studio, VS Code, React, .NET, WordPress, Android Studio, Expo, Firebase, Docker

Languages: C#, Python, Java, JavaScript, HTML/CSS, SQL, REST

Technical: JUnit/Automated testing, Agile Methodologies, SCRUM, Mobile Application Development, Cloud Computing, APIs, Artificial Intelligence, Machine Learning, Object-Oriented Programming

AWARDS

- Microsoft C# Fundamentals Certification
- Microsoft AZ-900 Certification
- REST Engineer Certification
- International Baccalaureate Diploma

EDUCATION

University of South Carolina – Columbia	Columbia, SC	May 2024
Bachelor of Science in Computer Science	Bachelor of Arts in Media Arts	

RELEVANT EXPERIENCE

Prompt Engineer | *Outlier AI* Jul 2024 – Present

- Crafting prompts to progressively train generative AI models to write code
- Assessing the factuality and relevance of domain-specific text produced by AI models
- Evaluating and ranking code generated by AI models for clients

Website and Technology Department Manager | *National STEM Honor Society* Aug 2023 – Jul 2024

- Maintained and optimized company website, resolving technical issues and improving functionality
- Contributed to the full-stack development of the company website ensuring seamless integration
- Supervised department interns, providing mentorship and leading weekly team meetings
- Delivered comprehensive training to interns, enhancing their understanding of business procedures and WordPress capabilities

PROJECTS

Artificial Intelligence Project | *Python, Machine Learning* Fall 2023

Utilized **machine learning** to implement a **binary classification** solution on a large image dataset of defective and non-defective potato chips. Utilized **PyTorch** and **Keras** libraries to produce models that averaged 95% and 98% accuracy respectively.

Scheduler X | *JavaScript, HTML/CSS, React Native, Expo, Firebase, APIs* Fall 2023 – Spring 2024

Android application developed in **JavaScript** with a team of five using **React Native**. Designed back-end system using **Firebase**, implemented **JUnit** tests and behavioral tests using **Detox**, designed UI and application theme using **HTML/CSS**, utilized data from **APIs**, and developed the app's website.

Blackjack | *C#, SQL, .NET, SQL Server, Amazon Web Services, Docker* Summer 2024

Console-based blackjack card game developed using **C#** and the **.NET framework** and containerized using **Docker**. Database hosted on **AWS** and managed using **SQL Server Management Studio**.
